

iClock
S880
RFID Time & Attendance and
Access Control Terminal

iClock S880 is a RFID terminal for time & attendance and access control applications. It adopts a brand new firmware and provides an unprecedented user experiences with stunning GUI, rock-solid stability, fast matching speed and expandability.

Users can easily manage data by networking iClock S880 via RS232/485, TCP/IP, and USB client.

Most importantly, all the functions can still operate in a networking state. iClock S880 is compatible with various types of USB flash disks, ADMS and former SDK. It also supports data backup and retrieve to avoid the risk of accidental deletion.

The iClock S880 has access control interfaces for retrieval, Wiegand-out, door lock connection, alarm, and bell.

Features

Remarkable User Experience

- Intuitive and stunning UI designed with the most popular and internationalized factor.
- Interface operation adopts modularized hierarchical design. Simpler, Better and More logical.
- Faster matching speed: Less than 1 second.

Enhanced Features and Performance

- User validity settings.
- Data backup and retreival.
- Advanced User ID consisting of letters and numbers.

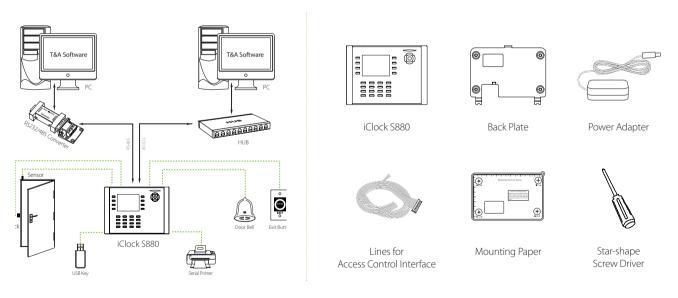

- Chip encryption for firmware protection.
- More flexible menu configuration: double line text display.
- External printer for attendance records output (Optional).
- Optional integrated Wi-Fi\GPRS.
- Relay contacts for alarm, bell, lock, exit, switch, etc.
- **Excellent Expandability**
- Easy to extend functions and customize customers demand. Access Control Interfaces
- For Wiegand-in, Wiegand-out, door lock connection, alarm, and bell.
